

MATH 2200 Fall 2002
Homework 3

Below is a list of selected problems from Edwards & Penny, as well as some of my own. It is in your best interest to work all of the problems. All problems from the homework are fair game on exams! *Please staple your work.* I will be available during office hours for help or by email. Homework is due Monday September 16, 2002 at 9:05am. There are two good reasons to start this homework early. First, this homework should be good practice for the exam this Friday. Second, I will probably be out of town this weekend and I will not be able to respond to email.
